

Lets introduce ourselves!

Helma Hoebink

Director of the department for Examinations

John Opdam

Senior Policy Officer/Trainer Developer

Koning Willem I College 's-Hertogenbosch

How our education department
Health Care
involves local Health Care organizations

Koning Willem I College 's-Hertogenbosch

Cooperation between the school and the institutions for Health Care in the region, is a continuous process of consulting one another:

Our College has a
Central Exam Committee.

This committee takes decisions
and makes exam policy for
the entire College.

in this committee the industry/
Health Care organizations
are represented.

The education departments
have their own
Sub Exam Committee.

in this committee the industry/
Health Care organizations
are represented.

From the Sub Exam Committee
the industry/Health Care
organizations are consulted for
range of different subjects

We will look at some...

The developed exam overview
is submitted for review

this is something we do in
several health care
organizations in our region

Koning Willem I College 's-Hertogenbosch

Submitting developed exams and asking for feedback

Koning Willem I College 's-Hertogenbosch

The development of formative (developmental) assessments and the associated curriculum

Koning Willem I College 's-Hertogenbosch

We organize
Seminars in which the
developed curriculum and
formative assessments are
discussed and debated

Koning Willem I College 's-Hertogenbosch

When students are examined within a Health Care facility, there has to be a examiner/assessor present from the institution.

In some situations there's also a examiner/assessor present from our College

After the assessment period,
there is always a process
evaluation.

The process evaluation is done
by the experts involved in the
assessment and teachers of our
College

Questions, similarities or differences

Lets talk..... and learn from each other
