

Qafee Care

Course: Exam Development
Date and time: 27-2-2014, 13.30-16.30
Trainers: Annemarie Hakkers, Anne-Marie Heessels, John Opdam, Marlies Vermunt, Arjan Versteeg (Dienst Examinering)
Location: King William I College, auditorium VA110

Goal

Developing expertise in the field of the construction of exams, in particular the quality requirements on exams.

Contents and programme

Constructing exams includes more than just the construction of an exam, both in practical and theoretical terms. It forms the backbone of the educational curriculum and with that it is a significant factor in defining the educational quality. Examination formulated appropriately clarifies which learning results should be achieved and with that it guides the educational content. To know how a proper exam should look like, you need to be familiar with the necessary knowledge and skills. In this short course you will be provided with the theory in this field.

Time	Programme
13.30 – 13.45	Introduction <i>Explanation of the goals and contents of the course</i>
